

# Basic kit HMVZ-6

Part number: 539377

FESTO

 [General operating condition](#)

## Data sheet

| Feature                          | Value                              |
|----------------------------------|------------------------------------|
| Mounting position                | Any                                |
| Corrosion resistance class (CRC) | 2 - Moderate corrosion stress      |
| LABS (PWIS) conformity           | VDMA24364-B2-L                     |
| Product weight                   | 1900 g                             |
| Adapter material                 | Wrought aluminum alloy<br>Anodized |
