# Radial Leaded PTC Resettable Fuse: FRV Series **Preliminary** RoHS

### 1. Summary

- (a) RoHS Compliant (Lead Free) Product
- (b) Applications: Line Voltage Power Supply, Transformer and Appliances
- (c) Product Features: Low hold current, Solid state, Radial leaded product ideal for up to 265V<sub>AC/DC</sub>
- (d) Operation Current: 50mA~550mA
- (e) Maximum Operating Voltage: 240V<sub>AC/DC</sub>
- (f) Maximum Interrupt Voltage: 265V<sub>AC/DC</sub>
- (g) Temperature Range :  $-40^{\circ}$ C to  $85^{\circ}$ C

### 2. Agency Recognition

- File No. Pending UL:
- C-UL: File No. Pending
- TÜV: File No. Pending

## 3. Electrical Characteristics (23°C)

I<sub>H</sub>=Hold current-maximum current at which the device will not trip at 23  $^\circ$ C still air.

IT=Trip current-minimum current at which the device will always trip at 23  $^\circ$ C still air. V MAX=Maximum voltage device can withstand without damage at its rated current.

I MAX= Maximum fault current device can withstand without damage at rated voltage (V MAX). Pd=Typical power dissipated from device when in tripped state in 23  $^\circ$ C still air environment.

RMIN=Minimum device resistance at 23°C

R1<sub>MAX</sub>=Maximum device resistance at 23 °C, 1 hour after tripping.

Physical specifications:

Lead material: FRV005-240F~FRV016-240F Tin plated copper, 24AWG. FRV025-240F~FRV040-240F Tin plated copper, 22AWG. FRV055-240F Tin plated copper, 20AWG. Soldering characteristics: MIL-STD-202, Method 208E.

Insulating coating:Flame retardant epoxy, meets UL-94V-0 requirement.

Warning: - Each product should be carefully evaluated and tested for their suitability of application.

- Operation beyond the specified maximum rating or improper use may result in damage and possible electrical arcing and/or flame.
- PPTC device are intended for occasional overcurrent protection. Application for repeated overcurrent condition and/or prolonged trip are not anticipated.
- Avoid contact of PPTC device with chemical solvent, including some inert material such as silicone based oil, lubricant and etc. Prolonged contact will damage the device performance.
- Additional protection mechanism are strongly recommended to be used in conjunction with the PPTC device for protection against abnormal or failure conditions.
- Avoid use of PPTC device in a constrained space such as potting material, housing and containers where have limited space to accommodate device thermal expansion and/or contraction.

NOTE : Specification subject to change without notice.
